

Jabra GN

CONNECT 4h

Professional sound for flexible working.

Engineered for clarity & comfort from the first call to the last.

Flexible headset for flexible workers

This intuitive headset from the world leaders in professional-grade audio is the perfect flexible working companion. It helps you stay connected in clarity and comfort on calls, and brings a rich sound quality few other headsets in this category can match, so it's great for music too.

Professional-sounding calls from anywhere

With 2-microphone technology, Jabra Connect 4h ensures your voice always comes through loud and crystal-clear, whether you're working from home, a café, or the office.

Powerful speakers for amazing audio

The 28mm speakers in Connect 4h bring a deep, rich sound to your music. So whether you're listening for concentration or relaxation, you'll experience satisfying, professional sound, in and out of office hours.

Advanced noise-isolating design

An immersive, noise-isolating design ensures you can concentrate wherever you find yourself working. Our signature ear cushions shield you from noisy distractions, helping you stay focused, whatever's going on around you.

A fit that feels good all day long

Weighing just 4.4oz and with optimized cushions to support your head and ears, Connect 4h feels feather-light, soft, and comfortable – even when you're wearing it all day. It's sturdy too, with a durable metal headband that makes it perfect for flexible working.

No setup required

It couldn't be easier to get going with your Connect 4h. Just plug the USB-C connector into your PC or mobile device*, and you're all set. And because it works with all your favorite meeting apps, you can take those calls from anywhere.

*Device dependent, additional connector might be required.

HOW TO START

Plug the Jabra Connect 4h into the USB-C port on your computer.

Position the microphone near your mouth.
