

The Jabra GN logo is displayed in a yellow rectangular box. The word 'Jabra' is in a bold, black, sans-serif font, and 'GN' is in a smaller, black, sans-serif font to its right. Below 'Jabra' is a horizontal line of small black dots.

CONNECT 4s

Professional calls for flexible working.

Engineered for amazing audio wherever you go.

Sound your best, wherever you're working

Clear, collaborative calls are essential for flexible working. Jabra Connect 4s combines office-grade clarity with portability, transforming your work calls, wherever you are. And because working from home shouldn't be all work, work, work, it's great for music too.

Next-level call quality

Make everything crystal-clear, with Jabra Connect 4s. With great sound from the world leaders in professional-grade audio, you can turn any space into your own personal meeting room. Transform every call by making things easier on the ear. For everyone.

Amazing music quality

When you're not on calls, the rich, premium sound of the Connect 4s also makes it a great all-round speaker for music and other media. Perfect for when you need a little background music while you work.

Added mobility for your meetings

Because better ideas happen when you're free to move, Connect 4s features a powerful microphone that picks up your voice in fine detail from up to 4.9 feet away. So you're no longer chained to your desk on calls.

Increased flexibility with Bluetooth®

With Bluetooth connectivity, you can easily connect to any Bluetooth enabled device, for maximum flexibility. Link your Connect 4s with any smartphone, laptop, or tablet, and effortlessly connect with colleagues in professional-grade clarity.

Portable professionalism

With a slim design, and weighing less than 7oz, this powerful little speakerphone is also extremely portable. So you can take the world-leading audio expertise of Jabra with you, wherever you need to work. It even comes with a smart, protective travel case.

No setup required

It couldn't be easier to get going with your Connect 4s. Just plug in the USB, or connect via Bluetooth to your PC, tablet, or smartphone, and you're all set. It's also compatible with all your favorite meeting apps.

Up to 15 hours talk time

Call running over? If you're connecting via Bluetooth, the rechargeable battery in your Connect 4s lasts up to 15 hours. With the automatic power-off feature, standby time is up to 200 days. And, when you do need to replenish, it's fully back up to speed in around 2 hours.

Fast access to your voice assistant

Simply tap the Smart button* on your Connect 4s to instantly link up with Siri, Cortana, or Google Assistant. Call your contacts, play music, and more, without missing a beat.

HOW TO CONNECT

Plug the Connect 4s USB cable into your PC or connect via Bluetooth to your device.

HOW TO PAIR

with Bluetooth® enabled devices

1. Tap power to switch on
2. Hold (2 sec) the Bluetooth button
3. Follow the voice instructions to pair to your device
